

SUSAN WILSON – CURRENT STATUS

Since 2001, and for the last seven years, I have been working at a reduced work load level whilst concentrating on being a mother to my children.

When my youngest daughter goes to Kindergarten in 2010 at 4½ years old and, my oldest daughter will then be 9 years old, I have every intention of resuming my business full-time.

However, during all this time - I still remain active in my yearly professional development requirements, and membership activity with my Association (BDAT).

SUSAN WILSON - PROFESSIONAL EXPERIENCE

1989

Qualified in the Certificate of Architectural Practice (now known as an Associate Diploma) and received student awards during that time.

1983 - 1991

Lived, and employed around Hobart, in many different capacities as a Draftsperson – both as a Trainee, and then, as fully qualified. All drafting work was seen to cover a vast array of projects in the building industry.
